ISTC Reopening Plan FAQ

What are the safety measures being put in to place for the health and well-being of students and staff?

- Daily temperature checks for staff prior to opening doors to students at 7:55 am
- Propped doors during arrival and transitions to eliminate all students touching for handles, etc.
- Adjusted schedules to reduce the number of daily transitions
- Prevention of co-mingling amongst students in K-5
- Traffic flow to prevent congestion in hallways and exterior corridors
- Face coverings when social distancing is not feasible
- Reduced furniture in classrooms to socially distance as much as possible
- Breakfast and lunch in classrooms to prevent large group gatherings in cafe
- No “rainbowing” of classes during special areas
- Designated recess areas for each individual class to keep classes from co-mingling
- Clinic procedures adjusted
- Layout of clinic changed to allow for isolation until pickup is possible for a symptomatic student
- Adjusted dismissal procedures to keep classes from co-mingling
- Reduced students on buses (No more than 2 to a seat) - as well as new loading and exiting procedures
- Installation of water bottle dispensers to replace water fountains
- Sanitization of hands and surfaces prior to and after eating Increased sanitization of surfaces and high touch areas throughout the day and after school hours
- 1:1 technology for students in grades 5-8 to avoid sharing of devices between classes

What is the plan for positive COVID case?

- We will use the Flagler County School District’s detailed response plan, and we will report to the local health department and take our guidance from them directly.

What will innovative learning look like?

- In the coming weeks, I will be working diligently with our leadership team, seeking advice from student and parent stakeholders, and working with our governing board to submit an approved plan for innovative learning to Flagler County and the FLDOE. This plan will have to meet the state’s outlined requirements for this type of learning. I can share currently that I expect innovative learning to be a mix of live lessons with an Imagine Town Center instructor, and assigned independent work to complete by a deadline. Our goal will be to mimic an actual school day to the maximum extent

possible, but students will not be looking at a screen from 8-3 daily. I can provide further details once our plan is approved, but we are definitely working on providing a flexible option to meet the needs of our families.

Can we switch learning platforms in the middle of the semester?

- While we are trying our best to encourage families to make semester long decisions, we certainly want to work with each family the best we can according to their comfort level, etc. but we wanted the best numbers we could possibly have prior to August so that we can plan appropriately for staffing teachers for the on campus learners and teachers for the innovative learners. With that being said, we know that we will need to allow for flexibility within those choices since circumstances change regularly. We will work with you! Your ease and comfort is important in this process for us.

What will before/aftercare services look like?

- We will still have before and after care. We will have smaller group sizes and try to keep students in the same grade level together so it will look a little different than we have been accustomed to, but we will have the services still.

Will we still have buses?

- Yes. We encourage parents to transport if and when possible since social distancing isn't feasible on our buses, but we will definitely still offer bus services.

Is there a specific mask/face covering that is needed?

- No. Students can choose a face covering that is comfortable for them. Masks or shields are allowable. Shields that are attached to a hat are also permitted. Buffs or neck gaiters are also acceptable.
